# HEALT BY HILL SOUR Soul

## WATER XYLOPHONE

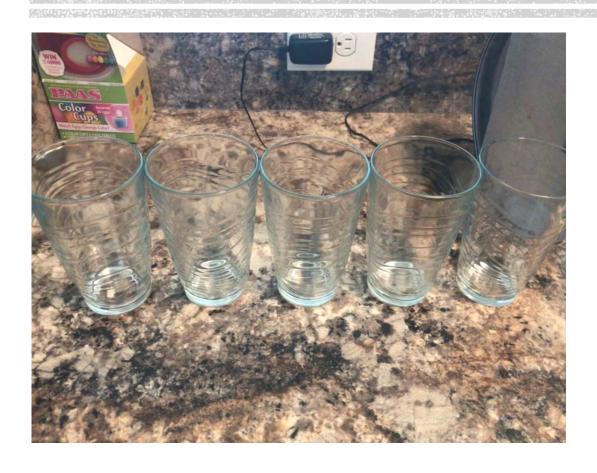

### MATERIALS

- Matching DrinkingGlasses
- Easter Egg Dye or Food Coloring
- Water
- Spoon

## STEP ONE

Lay out all your glasses in a row

#### STEP TWO

•Fill the first glass with a little bit of water. (We did about 3/4 a cup)

#### STEP THREE

•For the next glass, add a little more water. (We used about one cup)

## STEP FOUR

 Continue with the same process down the line until you get to the end.

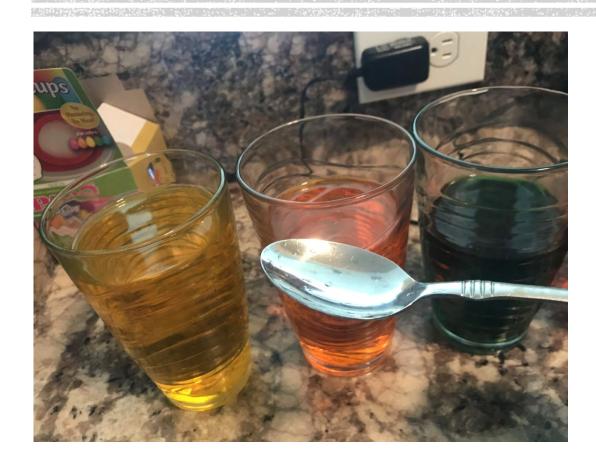

## STEP FIVE

 Once you have all your glasses filled to varying levels, add one color into each of the glasses and stir it in.

### STEP SIX

• Take your spoon and GENTLY tap the side of each glass to hear the different sounds. You should notice, the more water in the cup, the lower the pitch.

•Try out different types of glasses and liquids to see how it affects the sound!
